

STOP ANIMAL POISONING

STOP ANIMAL POISONING ZERO TOLERANCE

We are witnessing repeatedly horrible cases of poisoning stray cats living on the streets. These cats are taken care of, many of them sterilized, and fed by local animals lovers. These cats are not bothering anyone. Our animal welfare organization Let's be S.M.A.R.T. considers such cruel practice as unacceptable! Animals have the same rights as people do. They are living creatures with feelings who ask only for water, food and safe place to live. They don't hurt anyone, they only offer love and even offer many health benefits to we humans. A man who deprived animals of their natural environment by building his own cities, has a moral obligation to care for animals. He should let people who are helping strays to do their work and to fight for improvement of stray animals situation, which in Greece is typically due to human intervention and truly tragic.

The solution for stray over population is not killing them but spaying/neutering (sterilizing)! They live much healthier lives without suffering from repeated births resulting in thousands of new strays each year. The animal welfare organization Let's Be SMART's can help you to spay/neuter a kitty or dog.

REPORT TO YOUR LOCAL POLICE IMMEDIATELY. Poisoning of innocent creatures is not a solution. Under Law 4039/2012 (ΦΕΚ Α-15/2-2-2012), which was amended by the article 46 of the Law 4235/14 (ΦΕΚ 32/11-2-2014), the ABUSE or KILLING of an animal is punishable by imprisonment of 18 months and a fine of between EUR 5,000 and EUR 30,000.

For any information or reporting case of abuse or poisoning of animal, please call 69 420 31 950.

To Love the Animals will bring PEACE to the People
